25X1

1. As of 9 June 1952, the building of the bridge between Giurgiu and Russe was making rapid progress. Trestles have been laid over the temporary wooden sites which were previously reported to have been seen in the left branch of the Danube River. Soon this bridge will be used as a temporary bridge for bringing construction material from the left bank over the Smarda branch to Mocanu Island.
2. The beginnings of a bridgehead on the Russe side were also observed.

25X1 3. [REDACTED] the bridge will be in direct connection with
the Giurgiu railroad station.
